# Installation Guide

## Insulated Indoor Cover

Insulated Indoor Cover  
shown in place over the  
inside of the unit.

The Indoor Sound Cover must be used with NCP condensing units, properly installed in the **WSD** Series Wall Sleeve. (Models 1000-WSD-12, 3000-WSD-12, 4000-WSD-12 and 5000-WSD-12 only.) **When properly installed the indoor sound is substantially reduced and thermal conductivity from the outdoors is eliminated.**

The Insulated Sound Cover will be supplied insulated, handles installed and assembled. To install on to the unit, either the top or bottom will need to be removed, depending, on the exit point, of the tubing. (4 screws)

Inside view of sound cover showing sound barrier foil insulation.
