- Professional buildings

Why Thru-the-Wall?

- *Better appearance*
- *Ground clutter eliminated*
- *Separate meter savings*
- *No theft or vandalism*
- *Short copper tube runs*
- *Less refrigerant charge*
- *No roof penetration*
- *Easily serviced in any weather*
- *Less expensive installations*

adaptability, appearance, efficiency and much more . . .

NATIONAL COMFORT PRODUCTS LINE IS COMPLETE.

We manufacture three capacity sizes in each of three thru-the-wall models to fit existing openings.

We meet capacity needs from small apartments to large condominiums with model sizes ranging from 1 1/2 to 2 1/2 tons.

Our units are engineered to be compatible with any brand of "indoor" unit to meet all of your new construction and replacement needs...
